Office Action Summary	Application No. 10/772,989	Applicant(s) IAIZZO ET AL.	
	Examiner Eric D. Bertram	Art Unit 3766	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/24/2008 has been entered.

Response to Arguments

2. Applicant's arguments filed 6/24/2008 have been fully considered but they are not persuasive. Applicant argues that Thacker does not disclose a tip electrode extending from the distal end of a lead body, as well as a glue segment extending outward from the distal end of the lead body. Examiner respectfully disagrees. As seen in figure 6 of Thacker, there is a distal end of lead body 15 shown on the smaller portion. Electrodes 24 and the glue segment 22 thus extend from the distal end, as they are included on the larger portion of lead body 15 in figure 6. The 35 USC 102(e) rejection of claim 12 is still considered proper.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the

Art Unit: 3766

applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 12 is rejected under 35 U.S.C. 102(e) as being anticipated by Thacker et al. (US 7,099,718, hereinafter Thacker). Thacker discloses a medical lead 15 with a lead body and a plurality of electrodes 24 extending outward from the distal tip of the lead body, as shown in figure 6. As further seen in figures 2 and 6, inside the tip electrodes is a medical adhesive that forms glue segment 22 and serves to affix the tip electrodes to the treatment site (see column 6). Glue segment 22 is inside the tip electrode, and as such is inherently encapsulated within a biocompatible capsule, since the electrodes are biocompatible, and encapsulates the medical adhesive, as shown in figure 2.

Allowable Subject Matter

5. Claims 1, 3-7, 10, 11, 13, 18, 20, 21, 23, 24, 26-28, and 30-36 are allowable over the prior art of record.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric D. Bertram whose telephone number is 571-272-3446. The examiner can normally be reached on Monday-Friday from 9:30-6 EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl H. Layno can be reached on 571-272-4949. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
